Sustainability Planning Survey

1. What needs of our community are not being met?

2. What assets, resources, or opportunities are you aware of that could be utilized toward the improvement of our community?

3. What criteria should be used to prioritize which projects are to be included in the Community Sustainability Plan?

4. How do you feel you could contribute to our community's sustainability?

5. What do you feel would be important characteristics of a vision for the community's future?

6. Feel free to leave your contact information for future correspondence.
