## Updated Notice to Residents

The Town of Wabana wishes to apologize to residents and advise that as we continue to upgrade our water system that residents may experience periods of low water pressure and/or discolouration of their water.

Soon the new well and water tower will be brought on line and we will commence water main maintenance. A schedule and further information will be circulated prior to commencement of maintenance activities.

Please be advised that we continue to be on a boil water order.

We thank you for your continued patience as we upgrade our water system.

Town of Wabana
